### **PROFESSIONAL SUMMARY**

An experienced Web Developer with 4 years of proficient experience in PHP Programming, specializing in Laravel, and CodeIgniter Frameworks. Seeking to leverage my expertise in JavaScript (JS), jQuery MySQL, and API Development to contribute to innovative web projects. Dedicated to optimizing web application performance and enhancing user experience through collaborative problem-solving and continuous learning of emerging technologies. Committed to delivering high-quality, scalable solutions while fostering teamwork and creativity in a dynamic work environment.

---

### **KEY COMPETENCIES**

Web Development Expertise  
Database Management  
Version Control

API Integration  
Testing and Debugging  
AI Integration

Team Collaboration  
Problem-Solving Skills  
Project Management

---

### **EDUCATION**

- Post Graduate Diploma in Human Resource Management -  
January 2022 **(Verified by IQAS)**
  - Bachelor of Science in Software Engineering  
January 2019 **(Verified by IQAS)**
- 

### **PROFESSIONAL EXPERIENCE**

#### **Symmetry Digital**

**Jan 2020 - Feb 2024**

Senior Backend Developer / Senior Associate - Development, Web (Core)

- Developed and implemented efficient PHP modules for the back-end code of web applications.
- Utilized JavaScript and jQuery to create interactive and dynamic user experiences.
- Managed MySQL databases for efficient data storage and database-driven functionalities in web applications.
- Participated in research to identify potential improvements and new technologies.
- Troubleshoot website and code issues to ensure smooth functionality and performance.
- Monitored website performance and provided ongoing maintenance and support.

- Collaborated with front-end developers to integrate their requests and ensure seamless integration.
- Continuously updated and enhanced website features to improve overall performance and user experience.

## **Horizon Technologies**

**Sep 2019 – Jan 2020**

### **Backend Web Developer – Internship**

- Optimized PHP modules to enhance the functionality of backend code in web applications.
- Integrated RESTful APIs into Laravel applications, improving functionality and connectivity with external services.
- Conducted thorough code reviews to identify and address performance bottlenecks.
- Integrated JavaScript and jQuery expertise to craft engaging and interactive user experiences.
- Utilized MySQL expertise to ensure streamlined data management and implement database-driven functionalities.
- Diagnosed and resolved bugs and issues, maintaining a high standard of code quality.
- Managed version control using Git and GitHub, facilitating collaboration with team members.
- Created comprehensive documentation for developed features, APIs, and workflows, ensuring seamless knowledge transfer within the team.

---

### **HIGHLIGHTED SKILLS**

- Proficient in web development with 4 years of experience in the dynamic marketing and advertising sector. Excellent communication skills demonstrated in diverse, multi-cultural environments.
  - Extensive experience in developing solutions for prominent Pakistani brands like Jazz, HBL Bank, Pakistan Stock Exchange, MCB Bank, and various in-house projects.
  - Expertise with website creation and management software, including frontend technology such as HTML, CSS, JavaScript, and jQuery.
  - Familiarity with E-Commerce tools such as WordPress.
  - Contributed significantly to research and development in Artificial Intelligence projects, including OpenCV, YOLO, and TensorFlow, focusing on facial and object recognition as well as classification tasks.
-
